BRITISH HIGH COURT REVERSES DECISION

Greene and Gaynor Must Come Back to Stand Trial.

INDICTED WITH CAPTAIN CARTER

These Men Will Now Be Tried in the United States Courts for Embezzlement and Defrauding the Government.

London, Feb. 10—(Delayed in Transmission.)—The privy council rendered its decision this morning in the Greene-Gaynor case, in favor of the American government.

The council reversed in two judgments of Justice Caron, of Quebec, Aug. 13, 1902, and ordered the respondents to pay the costs of the appeal. The council's decision caustically criticises the action of Justice Caron in releasing Greene and Gaynor, and Caron's "extraordinary intervention," and adds:

"Where a prisoner is brought before a competent tribunal charged with

JOHN F. GAYNOR.

an extradition offense and is remanded for the express purpose of affording the prosecution an opportunity of bringing forward evidence whereby the accusation is to be supported, if in such a case upon a writ of habeas corpus a learned judge treats a remand warrant as a nullity and proceeds to adjudicate the case as though the whole evidence was before him, it would paralyze the administration of justice and render it impossible for proceedings in extradition to be effective."

The decision simply reverses Justice Caron's judgments and leaves Greene and Gaynor under remand as before Justice Caron intervened.

History of the Case.

John F. Gaynor and Benjamin D. Greene, were indicted in Savannah, Ga., Dec. 8, 1899, charged with embezzlement and defrauding the United States government together with Captain Oberlin M. Carter, in the performance of government contracts for the improvement of the Savannah river and other river and harbor work in that district, the illicit profits being estimated at $2,000,000.

Gaynor and Greene were arrested in New York. They contested extradition to Georgia and when the United States commissioner decided that they must go to that state and plead to the indictments they fled to Canada. They had been at liberty on $40,000 bail each, and this was forfeited. Efforts to extradite Gaynor and Greene from Montreal were progressing favorably and the extradition commission was sitting in Montreal when Gaynor and Greene went to Quebec. A question arose as to whether they could be brought back and detectives kidnaped them and took them to Montreal. There was a big legal fight over this action and a Quebec judge issued a writ of habeas corpus which was served on the jail at Montreal who delivered up the prisoner without notification to the extradition tribunal and permitted them to be rushed back to Quebec. Efforts to quash the writ of habeas corpus under which they had been returned were denied by Justice Caron. After a long legal controversy, Gaynor and Greene obtained their liberty within the limits of the province of Quebec. The United States government then appealed to the privy council of England, the highest court in that country.

NEWS FROM NATIONAL CAPITAL.

President Making Arrangements for Transfer in Diplomatic Corps.

Washington, Feb. 11.—President Roosevelt has finally arranged for the transfers in the high European diplomatic posts which he contemplates putting into force on March 4. Ambassador McCormick, of St. Petersburg will become ambassador to France. George Meyer, ambassador to Italy, replaces McCormick. Henry White, secretary of the embassy at London, will be ambassador to Rome, Italy. Henry L. Wilson, at present minister to Chili, will be minister to Birmingham, Eng., succeeding Lawrence Townsend, of Pennsylvania, who retires.

Judge Swayne was present with his attorneys when the senate met today.

When the hour arrived for reconvening the senate as an impeachment court, Senator Platt (Conn.) took the chair, and the sergeant-at-arms made the usual proclamation imposing silence on pain of imprisonment.

The house today proceeded to consider the matter of pension bills.

The house committee on ways and means, authorized a favorable report on the tariff bill for the Philippines. The bill is a complete revision, the duties collected by the Philippine government on imports from all countries, and the schedules as prepared by Secretary Taft were not amended in any material particular.

Augustus L. Shafer was hanged today here in the jail for wife-murder. He killed his wife last August. The prisoner smiled as he walked to the scaffold.

WOMAN BRAVEST OF ALL.

After Captain of Boat Became Exhausted, She Steered Craft.

Halifax, N. S., Feb. 11.—The second boat from the wrecked Furness Line steamer Damara reacher port Thursday. It contained Captain Gorst, ten of the ship's crew, and three passengers. One of the latter was a woman, and to her presence in the boat the men attribute their safety.

Though 12 hours in the open boat with the temperature at 2 deblow zero, and a mighty gale lashing the sea, the gallant sailors bent to their oars, while Mrs. Prowse, bearing up under the ordeal with heroic courage, cheered them at their task.

A score of times they were almost overcome by the cold. Waves repeatedly dashed over the boat, the water freezing as it fell and turning the sailors into statues of ice. Captain Gorst became so numbed that the tiller dropped from his hand, and Mrs. Prowse seized the line herself and guided the boat in its heartrending progress toward shore.

When near the landing at Pleasant Point, whence the news of their arrival was telephoned today, the sailors were so worn out that they could not force the boat through the surf, and the men on shore waded and dragged the boat in.

One Killed; Several Hurt.

Des Moines, Feb. 11.—One man was killed, another is missing and 24 persons wre injured when eight passenger cars and an engine piled in a ditch and a 200-foot bridge was wrecked, the result of a broken rail on the Chicago, Wilwaukee, St. Paul road near Melbourne today. The train wrecked was the overland limited, which left Chicago last night and was drawn by two engines. The man killed was the engineer.

Carnegie Library for Albany, Ga.

Albany, Ga., Feb. 11.—The city authorities have received from Andrew Carnegie notice that as soon as the city announces that it has prepared a site for the Carnegie library, funds for putting up the building will be made available. The site will be secured and title perfected without delay, so that in the course of a few weeks work will, it is hoped, be in progress on the building.

BROTHERS CHARGED WITH TRIPLE MURDER

Their Victims Were Found Completely Beheaded.

ROBBERY THE SUPPOSED CAUSE

All the Evidence Was Circumstantial, But Prisioners Were Bound Over by Verdict of Coroner's Jury—Father Had Sold Farm for Sum of Money..

Marion, Ark., Feb. 11.—John and Albert Boylan are in jail charged with murdering father, mother and brother. The crime occurred on a farm tenanted by the family. Robbery is supposed to have been the cause, the sons knowing that their father had recently sold his farm for a good round sum, part of which it was thought he had with him.

The crime was discovered by John Garrett, who, riding by the Boylan home, saw the body of Rush Boylan lying in the front yard, decapitated. As soon as he entered the yard evidence of a fierce struggle met his vision. Rush Boylan's head lay to one side, where it had rolled when severed by an ax, the instrument used in executing the three murders. In the doorway was the mangled and decapitated corpse of the mother, her clothing torn and covered with gore. She had evidently died resisting blows.

Garrett went through the house looking for the old man, who he knew well, as he did every member of the family. In the kitchen, on the floor, were the remains of his friend, his head also severed from the body. In the same yard with this tenement of murder was the home of John and Albert Boylan, eldest sons of Albert Boylan. Their home is in speaking distance of their father's.

All the evidence was circumstantial. A verdict of murder was returned by the coroner's jury, and the two boys were accused of the crime. They were bound over to the next term of court.

TO GIVE CHINA MONEY BACK.

Refund Uncle Sam's Part in Putting Down Boxers Uprising.

Washington, D. C., Feb. 11.—Secretary Hay, with the president's approval, has practically decided that the $22,000,000 which China paid to this country for the expense it was put to in aiding in the suppression of the Boxer uprising, will be returned to China after the war. Mr. Hay fears that if returned before the end of the war it might produce jealousy among the neutral powers, which might affect his plan for the preservation of China.

This government's total award in the settlement of the Boxer trouble was $24,000,000, of which $2,000,000 was for the payment of claims of citizens and missionary societies and most of the latter has been paid out.

Mr. Hay believes that the money can be returned to China without a special act of congress, and he considers that this country is not honestly entitled to it, because it was spent in protecting American citizens and their rights from an uprising for which China was not responsible.

EMBEZZLEMENT CHARGED.

Young Alabamian Arrested in Valdosta, Ga.

Valdosta, Ga., Feb. 11.—Morgan Sweatt, Jr., a 15-year-old lad of Montgomery, Ala., was arrested here this afternoon on a charge of having embezzled $500 from parties in the former city. The boy was taken in custody as he stepped from the train at the depot on the strength of a telegram from from Montgomery. He had $371 in his pockets and claims that the balance of the money was stolen from him at Dothan, Ala. while he was asleep in the railroad waiting room.

Young Sweatt is a bright-faced, intelligent looking boy, well dressed and of good apearance. His father is said to be a well known insurance agent in Montgomery.

The chief of police of that city will arrive Saturday morning. The boy is spending the night in jail.

EXPECT GREAT FIGHT SOON.

Japanese Blockade of Vladivostok Proves To Be Effective.

Tokio, Feb. 11.—Manchurian headquarters reports that the Russians have continued bombardment in the direction of the Shakhe river two days and are entrenching.

The impression prevails that an impending battle between the armies of Oyama and Kuropatkin will occur before any material thaw takes place.

The vice president of the bank of Japan goes to America and England next week to hold conferences regarding a fourth Japanese loan.

It is reported from Vladivostok that the Russian cruisers Rossia and Gemoboi have been repaired, but it is doubted if they will emerge from the harbor on account of extensive seizure by the Japanese vessels outside. The blockade is believed to be effective.

Russian Forces Do Not Attack.

General Kuroki's Headquarters, Feb. 10.—Noon—(Via Fusan)—The large force of Russians remains on the right bank of the Hun river, but shows no disposition to attack.

There are frequent clashes between patrols, but without serious results.

The Russians have bombarded daily, but the Japanese seem to suffer no damage.

Every day three or four Russian soldiers surrender. There is no prospect at present of a general engagement. The weather continues very cold.

WOMAN TRIES TO END LIFE.

Wife of Merchant Who Has Been Fleeced Found Unconscious.

New York, Feb. 11.—The wife of John J. Felix, the merchant who says he was fleeced of $50,000 in the Fifth Avenue hotel, had already tried to kill herself because of the disgrace brought on her when two of the alleged plotters were arrested. Felix himself told Commissioner McAdoo this Thursday and described the scene in his home when he returned last Sunday night, and found she had made every preparation to take her life.

"In five minutes, I have no doubt she would have been dead," he said.

Felix told Commissioner McAdoo that when he entered the room he found her overcome by gas which was pouring from the jet in his room.

The story of the alleged strange swindle brought to light many surprises yesterday, among which, perhaps the most interesting is that, while he has said repeatedly that he was going to his home in Princeton, N. J., where William R. Rose, one of his lawyers, believes he lives, nobody in Princeton knows him. A thorough search of the city was made for his family. It was found his name is not in the Princeton directory. The police there do not know him and no real estate man has ever heard of him.

SOLD WIFE FOR FIVE DOLLARS.

Horsetrader, After Trying To Sell Stock, Disposes of His Spouse.

Pittsburg, Kans., Feb. 11.—Among the deals at the city horse market here was the sale of a wife for $5.50.

A horse trader drove into the market inclosure last evening with a team of horses and a woman, who he said was his wife, and a boy 7 years old. He said his name was William Robinson, of St. Joseph, Mo.

After a vain attempt at a horse trade he gave out that he would sell his wife. The declaration got to the ears of Joe Walkup, a miner widower, who was in need of a housekeeper, and he immediately visited the market and sought out Robinson.

After a short talk with the woman he inquired the price and was told $11. Walkup offered $5, and Robinson told him if he would add 50 cents he would take the woman. Walkup paid the money and took the woman home with him. Shortly after the sale Robinson left town.

Army of Linemen at Work.

Birmingham, Ala., Feb. 11.—Birmingham is enabled to renew wire communication with Atlanta this morning for only a few minutes, the wire again failing. An army of linemen are at work. Landslides on the railroads in this vicinity have been cleared from the tracks and train service is somewhat improved.

OVER ONE HUNDRED STRIKERS ARE KILLED

Disturbances In Russia Are Renewed With Vigor.

STRIKERS CONGREGATING AGAIN

Twelve Thousand Men Strike at Big Iron Works in St. Petersburg—Several Factories Increased Wages to Prevent Trouble.

Warsaw, Feb. 11.—Over 100 strikers were killed or wounded in front of the big iron works last night at Sosnogice.

The strikers had attempted to put out the fires in the furnace when the troops fired several shots.

Lodz, Feb. 11.—The strikers are again gathering about the mills today, threatening destruction. More troops have arrived and bloodshed is expected hourly.

St. Petersburg, Feb. 11.—The entire force of the Putiloff and France-Russian Iron Works struck today because they were unable to agree with the management on an eight-hour day.

Twelve thousand men are out on strike. Several other factories have increased the wages of the men to try and prevent them from quiting work, but their action has been condemned by the other concerns.

The strikers began parading the streets in an attempt to induce other men employed to quit work, but the troops impeded their progress and finally dispersed them.

TROOPS TO ESCORT FELTNER.

When He Goes to Breahhitt County to Give His Testimony.

Lexnigton, Ky., Feb. 11.—Attorney B. F. Jouett, representing Mrs. Arbrella Marcum in her damage suit against the Hargis family and others, has stated that Goverpor Beckham would be asked for a battalion of soldiers to escort Mose Feltner to Jackson on the 20th of this month, at which time he is to appear before the circuit court to answer to the indictment for killing Jesse Fields. It is said that Feltner is in constant fear of bodily harm, and refuses to sit near a window in the house of Mr. Pigg, where he is kept under surveillance. After giving his depositions, Feltner said:

"I have told the truth, but I know I will be shot for it. I am going to be killed, and mark what I tell you."

It was made known today that the letter which Lewis Hayes slipped into his pocket told him to "do the right thing," and stated that he would be protected. It also said that if he made any depositions he could not only have to stand trial for killing Fields, but for killing Tom Frazier, and for robbing the mails.

Kaiser Favors Teetotalism.

Berlin, Feb. 11.—Emperor William has given his support to a move to allow officers to drink toasts in water or non-alcoholic beverages. Dr. Adolph Banzer, of Munich, a member of the Society Against the Misuse of Spirituous Liquors, asked if officers might not drink toasts in water. The Prussian minister of war replied that his majesty's command the department to inform him that "no compulsion exists to partake of toasts in alcoholic drinks, and that it may be left to the movement now in progress to advance this idea in all circles."

Policeman Caught Robing Store.

Milwaukee, Wis., Feb. 11.—Patrolman John Roach, a trusted member of the Milwaukee police force for 11 years, has been arrested by Detective Fred Peck, his brother-in-lay, for burglary. The policeman entered the grocery store of George H. Ackerman, while on duty Tuesday night, and was caught taking cash from the till. Roach has an invalid wife and seven children living in Warren avenue. The large expenses of supporting the sick wife and large family are said to have led to the robbery. Roach occupies a cell in the Central police station.

SERVICES AT THE CHURCHES TODAY

Preachers of National Reputation Will Fill the Pulpits.

THE TABERNACLE EXERCISES

All Churches Give Way to the Services of Bible Conference This Evening. Dr. Gwilym Will Preach This Afternoon, Dr. Tigert Tonight.

Services at the various churches today will prove of unusual interest, inasmuch as visitors to the Bible Conference will occupy some of the pulpits. Not that our local ministers would not prove of sufficient interest, however, but those who are here are of national reputation, and their services are naturally highly appreciated by the congregations they represent.

Services will be held today as follows:

At the First Presbyterian Church Rev. Thos. P. Hay has invited Rev. W. E. Blackstone of Chicago to deliver the sermon, and Dr. Blackstone has consented. He is a speaker of great ability, and those who hear him are sure to be pleased. There will be Sunday school at this church at 3 o'clock this afternoon, and at 6:45 o'clock a meeting of the Westminster League will be held. The topic will be, "Christ a Servant; and We Are Servants." No evening service.

Kavanaugh Methodist Church, Rev. T. J. Nixon—Sunday school at 9:30 a. m. Preaching at 10:30 a. m. by Rev. Dr. Sullien of Cleveland, Tenn., one of the ablest divines in the South. No evening service.

First Baptist Church, Rev. S. B. Rogers—Services at 10:30 a. m. No evening service.

Holy Trinity Episcopal Church, Rev. Francis H. Craighill—Holy Communion at 7 a. m.; morning prayer and sermon at 10:30 a. m., conducted by Rev. David Vaughn Gwilym, the eminent rector of New York. Subject, "Man and the Fire." Sunday school at 3 p. m. No evening service.

There will be no morning service at the Tabernacle. In the afternoon at 3 o'clock Dr. Gwilym will preach on "The Love Song of Jehovah." This is one of Dr. Gwilym's strongest subjects, and those who hear him will appreciate what he has to say. At 7:30 in the evening Dr. John J. Tigert, L. L. D., late professor of Vandervilt University, now editor of The Methodist Review of Nashville, Tenn., and one of the greatest preachers in the South, will deliver an impressive sermon. The public is cordially invited to attend all services at the Tabernacle.

Advent Christian Church, Rev. Joe Sherouse—Regular services morning and evening. The pulpit will be filled by Rev. Elder J. T. Butler, one of the most forcible speakers in the State, and will interest all who hear him.

The public is cordially invited to all places of worship, and stangers will be welcome. Seats free.

Bought a Fine Horse.

Mr. Cone is now training the horse daily at his place at Raleigh, and expects to enter him for some of the important races. The ani- may also be exhibited at the horse show during the chautauqua here.

A CREAMY FOOD

Scott's Emulsion is cod liver oil prepared as a food—not a food like bread or meat, but more like cream; in fact, it is the cream of cod liver oil. At the same time it is a blood-maker, a nerve tonic and a flesh-builder. But principally it is food for tired and weak digestions, for all who are fat-starved and thin. It is pleasant to take; children like it and ask for more.

NEWS OF CITY AND COUNTY CONDENSED

D. B. Pope of LaCrosse was trading in the city yesterday.

W. D. Holder of LaCrosse was among the visitors to the county capital yesterday

H. Chancy of LaCrosse, one of the leading farmers and citizens of that section, was trading in the city Friday.

Miss Josephine Budd, a charming young lady of Monticello, is in the city, the guest of her aunt, Mrs. Rachel Haile.

Mrs. T. C. Warner of Columbus, Ga., is the guest of her son, D. C. Warner, of this city. She came to attend the Bible Conference.

T. W. Pitts, for many years a resident of this city, and who owns valuable property here, is in the city for a few days on business. Mr. Pitts is now residing in Tampa, which he declares to be the finest city of its size in the South.

C. C. Voyle has returned from Auburn, Ala., where for the past few months he has been taking an electrical course in the Alabama Polytechnic Institute. Mr. Voyle is one of the most competent young electricians in the country. It was under his direction that the wires of the East Florida Telephone Company were extended and the instruments installed. No better system can be found anywhere, and the people of Gainesville and other points appreciate the convenience afforded by the lines of this company.

Attention is called to the advertisement of J. W. Patton, civil engineer and surveyor and dealer in real estate, which appears elsewhere in this issue. Mr. Patton has been for years a resident of this section. He has made a careful study of all the lands not only in Alachua county, but in the entire State, and no better man could be secured when it comes to the location of property. He is also well versed in the diversities of the various lands, especially in this county, and those desiring information could not do better than confer with him.

Croup

Begins with the symptoms of a common cold; there is chilliness, sneezing, sore throat, hot skin, quick pulse, hoarseness and impeded respiration. Give frequent small doeses of Ballard's Horehound Syrup, (the child will cry for it) and at the first sign of a croupy cough, apply frequently Ballard's Snow Liniment to the throat.

Mrs. A. Vliet, New Castle, Colo., writes, March 19th, 1901: "I think Ballard's Horehound Syrup a wonderful remedy, and so pleasant." 25c, 50c and $1. Sold by W. M. Johnson.

The Ominous Owl.

It's an odd thing, but there are a number of people who have a distinct antipathy to the screech owl and cannot listen to a single burst of its hilarity without shuddering. The screech owl is supposed by the negroes on southern plantations to be in direct communication with all the ghosts and giants of the forests. He plays a great part in the more weird folklore stories of the darkies. A funny superstition in regard to the screech owl is that if you will take your shoe or slipper off your left foot the first time you hear an owl laugh and turn the shoe sole upward on the floor and place your "stockin' foot" on the bottom of the shoe's sole the owl will stop laughing and fly for ten miles without rest.

THREE RECIPES.

The Way to Either Can, Jam or Preserve a Husband.

For this purpose select a nice, kind, amiable, industrious, generous man. The American variety is far better than the foreign kind. Prepare him by having him go through a long engagement, which effectually renders him easy to handle. Gently detach him from all of his old friends and acquaintances and remove any habits he may have. He is then ready to can, preserve or make jam, as you choose.

To can, merely deprive him of his latchkey and throw a handful of mother-in-law in the house. Men corked up like this have been known to keep for years without spoiling, though when they are opened up, if kept too long, they are apt to be sour. To make jam, prepare as before, but shred all of his finer feelings by nagging and pound them into a pulp by complaints. To preserve a husband, put as much love into the heart as it will hold, add an ocean of sympathy, a world of tenderness, a pound of forbearance, a dram of patience and drop him into it until he is thoroughly coated over with sugar. Husbands should always be crystallized one at a time, never in pairs; neither should they ever be stood in hot water. This is where many women make mistakes.—Memphis Commercial Appeal.

Fraud Exposed.

A few counterfeiters have lately been making and trying to sell imitations of Dr. King's New Discovery for Consumption, Coughs and Colds, and other medicines, thereby defrauding the public. This is to warn you to beware of such people, who seek to profit, through stealing the reputation of remedies which have been successfully curing disease for over 35 years. A sure protection, to you, is our name on the wrapper. Look for it, on all Dr. King's or Bucklen's remedies, as all others are mere imitations. H. E. Bucklen & Co., Chicago, Ill., and Windsor, Canada. All druggists.

The Baby Beetle's Cradle.

If, at almost any time of the year, we walk through the woods where the red, scarlet, black or pin oaks are growing—that is, where we find those that ripen their acorns in two seasons and therefore belong in the pin oak group—we shall probably find on the ground fallen branches that vary in size from that of a lead pencil to that of one's thumb or even larger. These at the broken end appear as if cut away within the wood, so that only a thin portion is left under the bark. Within the rather uneven cut, generally near the center of the growth, is a small hole tightly plugged by the "powder post" of a beetle larva. Split open the branch or twig, when a burrow will be seen, and the little, white, soft, hard jawed larva that made it will be found or perhaps the inactive pupa.—St. Nicholas.

Why Sailors Wear Collars.

Probably not many people, including the wearers themselves, know the origin of the sailor's collar. Many years ago when Jack Tars wore their hair in pigtails, which they were in the habit of keeping very greasy, the backs of their coats used to get in a very dirty and untidy condition owing to coming in contact with the hair, consequently the order was given for a detachable and washable collar to be worn, so that they might look more tidy.—London Standard.

When You Have a Cold.

The first action when you have a cold should be to relieve the lungs. This is best accomplished by the free use of Chamberlain's Cough Remedy. This Remedy liquefies the tough mucous and causes its expulsion from the air cells of the lungs, produces a free expectoration and opens the secretions. A complete cure soon follows. This remedy will cure a severe cold in less time than any other treatment, and it leaves the system in a natural and healthy condition. It counteracts any tendency toward pneumonia. For sale by all druggists.

The Fountain of Youth.

Mr. Jones—My daughter is only eighteen. You had better wait until she is older. The Lover—Well, I've waited two years for her to get older, but she still stays at eighteen.—Judge.

The Usual Cause.

"Reggie, can you spell kitten?"

"No, mother."

"But what do you go to school for?"

"Only cause you make me, mother," said Reggie sadly.

What makes life dreary is the want of motive.

FORTY-TWO DEGREES BELOW

Is the Kind of Weather Lieut. Pike Experienced.

In a letter to The Sun, dated Fort D. A. Russell, Wyoming, February 6th, Lieut. Roland S. Pike, 11th Infantry U. S. A., says:

"Dear Mr. Mc: Enclosed find check for $2.00 on payment of my subscription to Semi-Weekly Sun and also for father's subscription to be sent to him at Columbia, S. C.

"We have been having some very cold weather and lots of snow. A few days ago the temperature was reported 22 degrees below zero, but it is much pleasanter now.

"Recently I was ordered to Fort Washakie for duty as a member of a general court martial, and had to make a stage trip of 147 miles in the Rocky Mountains. The night before we went over the Divide the temperature was reported 42 degrees below zero, but was somewhat milder when we struck it—about 10 or 15 degrees below.

"We made the trip in thirty-three hours coming back, traveling night and day, and all crowded up in a light mountain wagon. We wore our heavy army overcoats, with buffalo coats over them; fur caps and gloves; two pairs of woolen socks, witch Dutch felt socks and overshoes over them; a lantern between each man's feet, and blankets fore and aft.

"I started to say something about Florida sunshine, but the other members of the party wouldn't stand for it.

"With kind regards,

"R. S. PIKE."

LETTUCE STILL MOVING.

Two Carloads Were Consigned From Points on G. & G. Friday.

Notwithstanding the damage said to have resulted from the recent cold, lettuce continues to move lively from this section. Seven carloads were shipped the week following this cold snap, and since that time the movement has been regular.

The Gainesville and Gulf Railroad Friday delivered to the Seaboard Air Line one express car and one refrigerator express car of lettuce. This was loaded from points on that road south of Gainesville, principally Rocky Point and Clyatt, and the aggregate of the two cars were about six hundred baskets. One car contained exclusively lettuce which was unprotected—grown in the open—during the last cold snap, and was as crisp as anyone would desire to see. It will no doubt bring good prices in the New York market, to which it was consigned.

An Approaching Marriage.

Cards are out announcing the approaching marriage of Miss Bertha Strickland, the accomplished daughter of Mr. and Mrs. J. A. J. Strickland of Hague, to Casper Hague, which will occur at the home of the bride's parents Wednesday, the 15th inst., at 3 o'clock in the afternoon. The contracting parties are both popular young people of Hague, and friends will extend congratulations in advance.

Collections Are Lively.

City Tax Collector Ellis stated Saturday that property owners are paying taxes at a lively rate, which is the best evidence that they are as a rule prosperous. However, there are a great many taxes yet unpaid, and the collector urges settlement without delay, as the books will positively close at the appointed time.

STONE HAS MISCARRIED.

Consignment From Jacksonville for New Church Building Lost.

There has been trouble in receiving the McCarrell stone, material to be used in the construction of the new Episcopal church in this city. Notwithstanding that this stone was billed from Jacksonville via the Atlantic Coast Line several days ago and should have arrived here within twelve hours, nothing has been heard of the shipment since it left Jacksonville, and it has become necessary to send a tracer after the material.

Fortunately Mr. Robertson, who has charge of the building, has not needed the material, or it would have delayed him for a short time. Owing to the inclemency of the weather Saturday it was necessary to stop work on the building, but Contractor Robertson hopes to be enabled to resume promptly Monday morning. The foundation is now being laid, and work will be rapidly pushed to completion.

"GIRLS IN RED."

One of Finest Attractions in Country With the Coming Carnival.

Among the many attractions at the carnival next week will be found the "Girls in Red," a complete vaudeville show under canvas, consisting of singers, dancers and funny comedians, headed by the famous Adams Sisters who have appeared as headliners in all of the leading vaudeville theatres in the United States and are known from coast to coast as the "Girls in Red." No such an array of high-class talent has ever before been carried with any carnival company, and is made possible now only by the desire of the Adams family to all travel together. If you are fond of good singing and dancing don't miss the "Girls in Red."

Approaching Marriage.

Rev. and Mrs. Walter C. Foster have issued invitations to the marriage of their accomplished sister, Miss Sallie Hudgins, to William T. The contracting parties are well known and popular, and their large circle of friends will extend congratulations in advance.

By order of the Executive Board of the Twentieth Century Club, the meetings will be indefinitely prosponed. Due notice will be given through the press of the next meeting.

Grave Trouble Foreseen.

It needs but little foresight to tell that when your stomach and liver are badly affected, grave trouble is ahead, unless you take the proper medicine for your disease, as Mrs. John A. Young of Clay, N. Y., did. She says: "I had neuralgia of the liver and stomach, my heart was weakened, and I could not eat. I was very bad for a long time, but in Electric Bitters I found just what I needed, for they quickly relieved and cured me." Best medicine for weak women." Sold under guarantee by all druggists at 50c a bottle.

UNDER THE SNOW.

Under the snow there is life, there is death,
From under the snow the sweet-scented breath
Of the springtime will rise again.

From under the snow the slumbering earth
Will wake with its verdue and warm into birth,
The flowers to bloom again.

Under the snow there are blessings in store,
For the garner and home, for the rich and the poor—
For the harvest will come again.

God dresseth the earth in the "beautiful snow,"
And His promise is sure that He gave in the bow—
The fields shall be fair again.

Thus under the shadows and cares of this life,
The heart may be clouded in sorrow and strife—
But the sunshine will come again.

RELIGIOUS AWAKENING.

During the past year there seems to have been a widespread awakening of interest in religious matters throughout the civilized world, evident in the discussions of the subject in magazines and newspapers and increased enthusiasm in platform and pulpit. The recent sweeping revivals in Wales and other parts of Great Britain have almost rivaled the Eastern war in the columns of the daily papers, and the portraits of the promoters have appeared side by side with those of the Czar and his generals. In the metropolis of our own State Christian people are uniting their efforts in this direction, and the vast tabernacle is nightly filled with thousands whose faces are set toward righteousness.

Nowhere has this movement been more strongly felt than in the schools and colleges. The Y. M. C. A. and Y. W. C. A. in the colleges of the United States have never had a year of such steady and gratifying progress as that which has just past. The young men and young women of Florida are not left out of this grand procession, and their organizations keep step with those of their brothers and sisters in other States.

StetsonUniversity has two very flourishing associations, which have recently furnished a hall provided by the University for their use. For two weeks they have held nightly meetings led by President Hulley, in which nearly thirty young men and women expressed their desire to enter the way of life. Parents who send their boys and girls into such an atmosphere may feel confident that the chances are very greatly in favor of their becoming men and women whose sympathies are with whatsoever things that are true, honest, just, pure, lovely and of good report.

And this is only one of the many institutions engaged in the grand effort for the uplifting of humanity.

IT IS QUEER.

Strange as it may appear, there seems to be a blissful unconsciousness of the fact that every commendation given to President Roosevelt for his attitude toward railroad and trust regulation by the government, is a rebuke to the past of his party. The wrongs he would right at the present time are legacies bestowed by the party at whose head he stands—legacies accumulated through indifference to, if not direct promotion of, the powers that the same party's present president is expected to destroy. And the strangest thing about the whole proceeding is the wonder as to whether the destruction will be accompanied by the tumultous applause of his predecessors' partisans. What a strange spectacle such action presents.

Such an attitude all will admit could have been more easily taken by either Harrison or McKinley or Cleveland for that matter—all three of whom were essentially Republican administrations. The corporations were at that time much easier to control, as they have grown from infants to giants under Republican rule, and it looks now as though they were turned over to a Republican President for subjection.

Really it would seem as though there was something unseen to the eye of the average observer, as most people have not looked to the party to destroy such a useful institution and more especially one of their own creation, while every Democratic platform for the last three campaigns has been most emphatic in its denunciation of trusts and monopolies.

If the President is in earnest and is backed by his party, it has certainly struck a new strain and must have been inspired by some unforeseen power.

There are many queer things, however, in partisan politics.

There is more catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from ten drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

RAIN HAS STOPPED WORK ON ROADS

Expert Dodge Was Compelled to Suspend Operations Friday.

WILL RESUME WORK MONDAY

Weather Permitting—More Than Two Hundred Yards Constructed First Day—Expert Spoon Engaged in Making Preparations for Street Work.

Work on the object lesson road, which is being pushed by the government, has been suspended temporarily, owing to the nasty condition of the material which is being used. The material has become so thoroughly saturated that it was impossible to work same to advantage, hence the expert, J. H. Dodge, decided it would be advisable to abandon work until it had become sufficiently dry to work with satisfactory results.

Work was begun Friday morning, and during the day more than two hundred yards were constructed. Mr. Dodge attempted to work Saturday, but conditions of the soil, caused by constant rains, were such that it became necessary to suspend operations. He hopes to resume Monday.

Expert Spoon, who has been engaged in making preparations for the street work, states that he intended to begin the work of setting up the rock crusher Saturday, but the condition of the weather would not permit. He hopes that everything will be favorable Monday, however, and in that event he will proceed to set the crusher, which will require two or three days.

Mr. Spoon states that, weather permitting, he will begin the work of grading the steeets to be paved Thursday, and by the last of the week will begin the laying of rock. The first process will be the establishing of a sub-grade, which means the excavation of earth in order to make the proper incline. A coat of large material, being rock the size of an ordinary hen's egg, will then be laid and rolled to a depth of two and a half inches. This process will be followed by a finer stone, which will be compressed, and the last coating, which will be a combination of fine crushed stone, will be applied and packed well by roller process.

Mr. Spoon states that when the street is completed it will be as hard and firm as a rock, and will resist water to such an extent that it will always be passable.

On the streets designated to be paved it is estimated that the facilities at hand will construct fifteen yards a day, lineal measure.

Street Parade.

You have no doubt seen imitators of the country band street parade. See the originator, Mr. J. C. Lewis, and his "Si Plunkard" Company Band Parade. The success of this novel and amusing method of heralding the advent of this attraction in every city it appears, has led others to imitate this medium of heralding their inferior shows. So do not confound this attraction with their imitators, for while Mr. Lewis feels flattered by imitators, he does not wish to be judged by them. So watch for this funny parade Monday.

MOZLEY'S LEMON ELIXIR

REGULATES THE LIVER, STOMACH, BOWELS, KIDNEYS.

The inventor of the famous "TERRELL SCRAPE," a man known wherever plows are sold and used, says:

"I have used MOZLEY'S LEMON ELIXIR for 10 or 12 years in my family for the stomach, liver and kidneys, and find it is the best medicine I have ever used. It is also a sure specific for pain in the back or under the shoulders. I have recommended it in numerous cases to my workmen, when sick and unable to work, and it has always given perfect satisfaction. H. D. TERRELL, President Atlanta Plow Co., Atlanta."

IN GAY MELROSE.

That Enterprising Village is Now in Heighth of Social Season.

Melrose, February 11.—The town council met in regular session on Wednesday, the full board being present. The annual reports of tax collector, treasurer and street committee were received and approved. The bill of the tax collector was ordered paid, after which the meeting adjourned.

The martins have arrived, the first being seen on Monday morning, February 6th, the exact date of their arrival last year.

Rev. Wm. A. Julian left on Tuesday for a visit to his daughter in White Rock, S. C.

At the regular meeting of the Ladies' Literary Society on Friday afternoon Mrs. H. B. Tolles read her paper entitled "Let Your Decision be Final."

What might have been a serious fire was discovered just in time on Monday afternoon in the kitchen of the Earle House on Bellamy avenue. Help was on hand and the fire extinguished in short order, doing only about $25 damage, covered by insurance.

New arrivals in town are Mrs. and Miss Scheller of Ansonia, Conn., W. L. Pearsall and family of Westfield, N. J., and F. Benham of Waterbury, Conn.

The members of the Melrose Reading Club were entertained at cards on Saturday afternoon by Mrs. R. Besant and on Monday afternoon by Mrs. von Noszky.

The Ladies' Aid Society will serve tea from 3 to 8 p. m. at the town hall on February 14. All are cordially invited.

Mrs. S. W. Bittam, Mrs. H. B. Tolles and Mrs. F. M. Tolles gave a delightful point-euchre party at the Ladies' Hall on Monday night; which was tastefully decorated with palmettoes, the combination of the handsome green leaves against the white walls being very effective. The large hall presented a very animated and happy sight when filled with the fifty guests present. The fortunate winners of the pretty prizes were Mrs. J. B. McDonald, Mrs. H. von Noszky, Mrs. J. A. Remmel, Dr. J. B. Curtis, Mrs. H. W. Hamlyn and Mr. M. E. Priest. All the ladies were presented with cunning little baskets filled with candy as souvenirs. After partaking of delicious chicken salad and other refreshments, the guests departed at a late hour, assuring their hostesses and host of having had a most enjoyable evening.

Engagement Announced.

The engagement has been announced of Miss Mary Louise Earle, formerly of Earleton, Alachua county, Florida, to First Lieutenant William Alexander McCain, United States Army. Lieutenant McCain is of the Eighth Cavalry, which is ordered to the Philippines, to sail first of April.

Miss Earle is a daughter of Hon. Baylis John Earle, who was a member of the Constitutional Convention of 1885.

The wedding will be about the first of March, at Fort Riley, Kansas, at the home of her brother-in-law, Captain Elmer A. Dean.

THE QUEST OF BEAUTY.

What One Woman Suffered For the Sake of Her Appearance.

You must suffer to be beautiful, according to a French saying. There seems to be some truth in the statement, if a lady's maid is to be believed. She has revealed the secrets of her mistress' boudoir, or, rather, torture chamber. The lady herself is now beautiful, but one wonders that she is still alive. For months she lay flat on her back on the floor, motionless, with her arms close to her sides, during several hours every day. This was, it appears, to improve her figure. During the rest of the day, for the same period of time, she sat on a high stool, giving and rocking the upper part of her body backward and forward and from side to side unceasingly. By this process she is said to have acquired a statuesque throat and a sylph's waist. The lady's nose, having a soaring nature, was corrected and made Grecian by the constant application day and night for months of a spring bandage. One nostril was originally larger than the other, so she wore a small sponge in it for a year. Her cheeks have been filled out and rounded by injections of paraffin. Her ears for months were compressed against the sides of her head by springs, while heavy weights were attached to the lobes to produce the required elongated shape, which has been successfully achieved. Having suffered this complicated martyrdom for a year, the lady, as already stated, is now beautiful.—Paris Letter.

Retain That Though You Have to Let Everything Else Go.

Some people get along beautifully for half a lifetime perhaps while everything goes smoothly. While they are accumulating property and gaining friends and reputation their characters seem to be strong and well balanced, but the moment there is friction anywhere, the moment trouble comes—a failure in business, a panic or a great crisis in which they lose their all—they are overwhelmed. They despair, lose heart, courage, faith, hope and power to try again—everything. Their very manhood or womanhood is swallowed up by a mere material loss.

This is failure indeed, and there is small hope for any one who falls to such a depth of despair. There is hope for an ignorant man who cannot write his name even if he has stamina and backbone. There is hope for a cripple who has courage, there is hope for a boy who has nerve and grit, even though he is so hemmed in that he has apparently no chance in the world, but there is no hope for a man who cannot or will not stand up after he falls, but loses heart when opposition strikes him and lays down his arms after defeat.

Let everything else go if you must, but never lose your grip on yourself. Do not let your manhood or womanhood go. This is your priceless pearl, dearer to you than your breath. Cling to it with all your might. Give up life itself first.—Success.

Itch—Ringworm.

E. T. Lucas, Wingo, Ky., writes, April 25th, 1902: "For 10 to 12 years I had been afflicted with a malady known as the 'itch.' The itching was most unbearable. I had tried for years to find relief, having tried all remedies I could hear of, besides a number of doctors. I wish to state that one single application of Ballard's Snow Liniment cured me permanently. Since then I have used the liniment on two separate occasions for ringworm and it cured completely. 25c, 50c and $1 bottle. Sold by W. M. Johnson.

Artistic Difficulties.

"It is difficult for a beginner in the drama even to walk across the stage properly, isn't it?" asked the student.

"Yes," answered Mr. Stormington Barnes absently. "But it isn't as hard as learning to walk between stations."—Washington Star.

Of More Consequence.

Hanley—That man Wilkes is going everywhere telling lies about you, Mercer—I don't mind that, but if he begins to tell the truth I'll let him know it.—London Tit-Bits.

Napoleon and the Directory.

"How did Napoleon get his assistants at the time of the circulate?"

"Oh, I suppose he looked in the directory."—Yale Record.

Forget Once In Awhile.

The health of the body as well as of the mind depends upon forgetting. To let the memory of a wrong, of angry words, of petty meanness, linger and rankle in your memory will not only dissipate your mental energy, but it will react upon the body. The secretions will be diminished, digestion impaired, sleep disturbed and the general health suffer in consequence. Forgetting is a splendid mental calisthenic and a good medicine for the body.

A Notable Deficiency.

The Professor—Of course in many respects the ancients were far behind us in civilization. His Wife—Yes. Now, I never heard you say that anybody had discovered the ruins of an ancient retail dry goods store.—Brooklyn Life.

A Candid Critic.

Author—Is it true that you say my latest is the worst book I ever wrote? Critical Acquaintance—Nonsense, my dear fellow. What I said was that it was the worst book anybody ever wrote; not you in particular.

A Narcotic.

Teacher—Give me a familiar instance of a narcotic. (Pupil hesitates.) Teacher—What does you father smoke in his pipe? Pupil—Mother says it smells like hayseed, but I guess it's leather.

WIFE-MURDERER McCUE HANGED

Confessed to Crime Before He Ascended to the Scaffold.

Charlottesville, Va., Feb. 11.—J. Samuel McCue, former mayor of the city of Charlottesville, was hanged today for the murder of his wife.

McCue confessed to murdering his wife before ascending the scaffold, saying that he was impelled to commit the crime by an evil genius, over which he had no control.

Supreme Court Refused New Trial.

Washington, Feb. 11.—Justice Harlan has denied the application for a writ of error in the McCue case.

Edward McCue and Mrs. Rhodes, brother and sister of J. Samuel McCue, and the latter's daughter, Ruby, visited the governor of Virginia today, but the result is not announced. It is not thought the executive will interfere.

McCue's attorney is waiting for the report of three physicians, sent from Alexandria, Washington and Fredericksburg, to examine McCue, as to sanity. If they return the report that he is insane, they will apply to the governor for a resipte. They have a sworn record from a western state hospital as to the insanity and treatment of the father and grandmother of McCue.

NAGGING PAINS

Newport News, Va., July 22, 1903.
Last summer while recovering from illness of fever, I had a severe attack of Inflammatory Rheumatism in the knees, from which I was unable to leave my room for several months. I was treated by two doctors and also tried different kinds of liniments and medicines which seemed to relieve me from pain for awhile, but at the same time I was not any nearer getting well. One day while reading a paper I saw an advertisement of S. S. S. for Rheumatism. I decided to give it a trial, which I did at once. After I had taken three bottles I felt a great deal better, and I still continued to take it regularly until I was entirely cured. I now feel better than for years, and I cheerfully recommend S. S. S. to any one suffering from Rheumatism.
613 32d St. CHAS. E. GILDERSLERVE.

Rheumatism is caused by uric acid or some other acid poison in the blood, which when deposited in the muscles and joints, produce the sharp, cutting pains and the stiffness and soreness peculiar to this disease. S. S. S. goes directly into the circulation, all irritating substances are neutralized and filtered out of the system, the blood is made pure and the general health is built up under the purifying and tonic effects of the vegetable remedy. Write for our special book on Rheumatism which is sent free. Our physicians will advise without charge all who will write us about their case.

DISAPPEARED FROM COLLEGE.

Girl Either Murdered or Abducted is Theory of Officials.

St. Joseph, Mo., Feb. 11.—"Olive Templeton was murdered on she has been abducted," is the opinion given by Sheriff Tennant and his officers after concluding a 24 hours' search in a vain effort to get a trace of the pretty 18-year-old girl who disappeared from the Immanuel College of Adventists, at Berian Springs, last Thursday morning.

"Did Miss Templeton meet her death by the avenging hand of a lover from whom she was forced to be separated," is the question asked by the authorities in forming the murder theory.

Girl chums of the missing girl tell the sheriff's officers that they have often heard Olive say that she was sent off to college by her parents so that she could escape the advances of a passionate lover in her home town—Sawyer, Wis.

The parents of Miss Templeton are prominent in Sawyer, and the grief-stricken father has notified the authorities that he is on his way to this city to aid in the search for his daughter.

Rat Gnawed Baby's Face.

Allentown, Pa., Feb. 11.—Aroused from her sleep early in the morning by the crying of her 3-year-old son, Mrs. William Fry discovered a large rat at the child's face. The rat had already chewed off the tips of several of the child's fingers, and had inflicted some frightful wounds on his face when the mother was awakened and killed the animal. The child is in a critical condition.

GOT HIS HAIR BACK.

Was Perfectly Bald When He Started to Use Newbro's Herpicide.

Frederick Manuell, Maryland block, Butte, Montana, bought a bottle of Newbro's Herpicide, April 6, '99, and began to use it for entire baldness. The hair follicles in his scalp were not dead and in 20 days he had hair all over his head. On July 2 he writes, "and today my hair is as thick and luxuriant as any one could wish." Newbro's Herpicide works on an old principle and with a new discovery—destroy the cause and you remove the effect. Herpicide destroys the germ that causes dandruff, falling hair, and finally baldness, so that with the cause gone the effect cannot remain. Stops falling hair at once and a new growth starts. Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

Gambier, O., Feb. 11.—The entire student body of Kenyon Military academy, numbering 160, are on a strike. They declare they will not return to their classes until three suspended students are reinstated. Everything at the military academy is at a standstill. The students yesterday afternoon marched to the village and in the evening a petition was sent to the agents, Messrs. Wyant and Williams, asking that the suspended men be taken back. The boys say they will return to their homes after a few days unless the academic board yields.

Rubbery Supposed Caused Murder.

Waycross, Ga., Feb. 11.—An inquest was held over the body of Mrs. Mary Smith, the aged white woman who was found in her house near Pearson with her throat cut from ear to ear. It is believed in Pearson that this murder was committed by white people. As the old woman is supposed to have had considerable monew in the house, it is thought that she was killed for the purpose of robbery. Her little 10-year-old granddaughter cannot give any information, as she was probably asleep when the murder was committed.

Where there used to be a feeling of uneasiness and worry in the household when a child showed symptoms of croup, there is now perfect confidence. This is owing to the uniform success of Chamberlain's Cough Remedy in the treatment of that disease. Mrs. M. I. Basford of Poolesville, Md., in speaking of her experience in the use of that remedy says: "I have a world of confidence in Chamberlain's Cough Remed, for I have used it with perfect success. My child, Garland, is subject to severe attacks of croup, and it always gives him prompt relief." For sale by all druggists.

Huntsville, Ala., Feb. 11.—Floyd Jones, a carriage painter, got on a rampage with a pistol on Jefferson street and fired a shot at an unoffending hack driver named John Fackler. He then placed the pistol against the stomach of L. Lehman, a bookkeeper, and tried to shoot, but Mr. Lehman escaped him. Jones resisted arrest, but was beaten into submission, and is now held on charges of public drunkenness, assault with intent to murder and resisting an officer.

SUN'S RAYS DISPELL ICE.

Atlanta Is Regaining Her Normal Condition After Big Storm.

Atlanta, Feb. 11.—Forecaster Mrbury is still cut off from the balance of the world and up to Friday noon he had not received a single telegraphic report. He says that never before in his experience of 25 years and in various parts of the country, has any office with which he has been connected been cut off so long and so completely from other parts of the world.

The forecaster is, therefore, unable to make any accurate prediction as to what the weather will do Friday night and Saturday, but from advices received by mail from the various stations in his territory, all of which are a day late, he thinks the weather will continue clear, with a probable slight fall in temperature late Friday afternoon and night.

The rays of the sun and the crisp, invigorating air have about put all the ice out of business and the streets in the residence section of the city are being rapidly cleaned of the fallen trees and poles. The telephone people have hundreds of men at work in all parts of the city re-arranging their broken wires, and the street cars are announced to start.

Without any return of the sleet and ice, Atlanta will resume her normal condition within 36 or 48 hours.

$15 Bill Passes Current.

Washington, Feb. 10.—The government has never issued a $15 bill, but some enterprising counterfeiter made one and passed it. The bill, now in Chief Wilkie's possession, was made by adding a 1 to a $5 note. The $15 bill was generally circulated in South Carolina until it reached a bank, when is was sent on to Washington with inquiries.

INTERVENTION IS WANTED.

Roosevelt Again Requested to Hunt Trouble in Far East.

Washington, Feb. 11.—The president was urged Thursday to take some action looking to a termination of the Russian-Japanese war.

The request was made by the Interparliamentary union through President Barthodlt, of the organization. Mr. Barthodt explained to the president that the concensus of opinion among the members of the union and others with whom he had been corresponding was that the president of the United States was the one man, with the possible exception of the emperor of Germany, who indicated no disposition toward bringing the war to an end, who might be listened to on the subject with favor by Russia. The president gave Mr. Bartholdt no assurances but promised to discuss the matter with Secretary Hay. It is known to be quite unlikely that this government will take any action of mediation until some assurances are received from both parties that such action will not be unwelcome.

Middletown, N. Y., Feb. 11.—Henry Mould, a farmer, living near Pine Bush, Orange county, was suddenly attacked by a maddened horse and barely escaped with his life. The animal, heretofore kind and gentle, seized Mould's cloth cap, tearing it off with one of his ears. Another bite lacerated his face, and then the animal struck him with its fore feet. Mould finally succeeded in escaping badly bruised.
